BUREAU OF LAND MANAGEMENT

WARM SPRINGS RESOURCE AREA

35 East 500 North

P.O. Box 778

Fillmore, Utah 84631

IN REPLY REFER TO:

3800

(U-055)

UTU-070718

October 12, 1994

ROBERT B WILSON
1927-A HARBOR BLVD #175
COSTA MESA CA 92627

Dear Mr. Wilson:

Your amended mining notice was received on September 27, 1994, and has been accepted by this office. This proposal has amended your case file, number UTU-070718. Please use this number in any future correspondence concerning this notice.

Your amendment proposes bulk sampling for perlite on six unpatented mining claims. On July 21, 1994, this office conducted a surface compliance inspection of the bulk sample site. Our field inspector mapped the sample pit's location on Snowflake 30 and Snowflake 31, UMC numbers 238650 and 238651, located in the NE $\frac{1}{4}$ of Sec. 26, T. 23 S., R. 9 W., SLBM. Enclosed is a copy of this map for your file. Acceptance of your amendment is limited to these two claims only. If you intend further operations away from the present disturbance, you are required to notify the appropriate BLM office at least 15 days prior to the start up of your operations. Please be aware, if an operator and/or claimant fails to comply with the Federal regulations contained in 43 CFR 3809, a Notice of Noncompliance will be issued, followed by appropriate remedial action.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, required by the Richfield District, Warm Springs Resource Area. Please follow these guidelines as they pertain to your operation.

If you change your operation from what is described in your notice, please contact this office prior to the change. If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your notice.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with them. A copy of your notice has also been sent to the Utah Department of Environmental Quality, Division of Water Quality (DWQ). Prior to the commencement of the proposed activity, all appropriate state water quality permits need to be obtained from the Utah Department of Environmental Quality, Division of Water Quality, located at:

288 North 1460 West
Salt Lake City, Utah 84114-4870

Acceptance of your notice is contingent on the disclosure of all hazardous materials associated with your operation and their use, storage, transport, quantity, generation and disposal. Information regarding hazardous materials can be obtained from the State of Utah, Department of Environmental Quality, Division of Solid and Hazardous Waste at:

288 North 1460 West
Salt Lake City, Utah 84114-4880

You are required to contact the Department of Environmental Quality (DEQ), Emergency Response Section (ERS) at the Section's 24-hour response number (801-536-4123) immediately of a spill or discharge of hazardous substances.

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands and reclamation is required at the earliest feasible time. Please notify this office upon completion of operations and reclamation so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

At your convenience, we would like to meet with you on site to review reclamation practices and initiate a reclamation plan. If you have any questions regarding this letter, please feel free to contact Rody Cox at (801) 743-6811. Thank you for submitting your amendment.

Sincerely,

Rex Rowley
Area Manager
